To-day's stock market was dull and uninteresting until the last hour, when comparatively heavy purchases of Sugar Refining by brokerage houses having close connections with Washington resulted in a net advance of 1% & cent. in that stock and imparted sympathetic firm-ness to the remainder of the list. The reason for the sudden demand for Sugar Refining was not apparent, and in consequence the Street attributed the movement in a vague way to the hearing of the sugar refining and producing interests before the House Committee on Ways and Means. The assumption that the buying orders in Sugar Refining came from Washington was followed, logically enough, by the conclusion that no attempt would be made to change the sugar schedules in the new tariff bill. The spurt of activity in Sugar Refining increased the total transactions on the Stock Exchange somewhat above that of yesterday. There was no improvement, however, in the dealings in other stocks; in fact, the transactions throughout the remainder of the list were smaller than yesterday. Even St. Paul, which was sold early in the day by the professional element in anticipation of an unfavorable traffic showing for November, did not contribute 10,000 shares to the footing for the day. The declaration of a dividend of 3 % cent. upon American Tobacco common, which was 1 W cent, more than had generally been expected, stimulated trading a little in that stock, but it was of a character that left the price fractionally lower than yesterday. Manhattan Railway was comparatively neglected, and in spite of the effort to restrain the company from paying a dividend, closed fractionally higher. The only noteworthy net changes other The American Tobacco Company has declared a quarterly dividend of 2 ♥ cent. on its preferred stock and a dividend of 3 ♥ cent. on its common stock, payable Feb. 1. mon stock, payable Feb. 1.
